

Black Excellence in STEM and Health Research Symposium

Presenting Keynote Speaker:

Dr. Maydianne Andrade

Professor Andrade's fundamental research uses black widow spiders as models for understanding links between ecology, evolution, and behaviour, particularly as these are related to mating and species diversity.

GUEST SPEAKERS

Dr. Dzevela Kong

Department of Mathematics & Statistics

Dr. Philip Asare

Assistant Professor at the University of Toronto's Faculty of Applied Science & Engineering

Dr. André Fenton

Professor
Center for Neural Science

Join us virtually March 27, 2021 1-4pm

Canadian Black Scientists Network
Réseau canadien des scientifiques noirs

PLANS
Promoting Leadership in
health for African Nova Scotians
