Dalhousie University acknowledges that we are in Mi'kma'ki, the ancestral and unceded territory of the Mi'kmaq People and pays respect to the Indigenous knowledges held by the Mi'kmaq People, and to the wisdom of their Elders past and present. The Mi'kmaq People signed Peace and Friendship Treaties with the Crown, and section 35 of the Constitution Act, 1982 recognizes and affirms Aboriginal and Treaty rights. We are all Treaty people.

Dalhousie University also acknowledges the histories, contributions, and legacies of African Nova Scotians, who have been here for over 400 years.

- Tutorials begin the week of September 18, 2023.
- Tutorials will not be held during study break or during weeks in which there is a scheduled university closure: There will be no tutorials held during the following weeks: October 2 – 6, October 9 – 13, November 13 – 17.

## Course Materials

- The primary source of material is Dr. Noble’s complete set of course notes, which will be available under **Content** on BrightSpace.
- Additional Resources for material or practice problems:
  - J. Stewart, “Calculus - Early Transcendentals” (any edition).
  - G. Strang and E. Herman, “Calculus Volume 1”, OpenStax. Available from <https://openstax.org/details/books/calculus-volume-1>.
- Brightspace: This course has a major presence on Brightspace. To access your Math 1000 course on Brightspace you may login to: <https://dal.brightspace.com/d2l/login>. It is important that you familiarize yourself with the systems requirement for proper access to Brightspace.  
You will need at various times to gain information from different areas of Brightspace. Most importantly:
  1. The course outline as well as links to the online assignments can be found under **Content**.
  2. Your grades can be found under **Assessments**.
- Webwork: Your online assignments will appear in webwork, accessed through links appearing under **Content** in BrightSpace.

## Assessment

The Final Grade will be computed as the maximum of the grades obtained from the following two schemes:

### Scheme I:

Component	Weight (% of final grade)	Date
Tutorial Quizzes	5%	Weekly
Midterm Exam	25%	October 25, 2023 (6:30 PM – 8:30 PM)
Final Exam	50%	(Scheduled exam period)
Online Assignments	20%	~3 per week

### Scheme II:

Component	Weight (% of final grade)	Date
Tutorial Quizzes	5%	Weekly
Final Exam	75%	(Scheduled exam period)
Online Assignments	20%	~3 per week

**Note:** It is strongly recommended that you prepare yourself to be graded on the first scheme; the second scheme is included in order to accommodate students who fail to perform up to their ability on the midterm due to circumstances beyond their control.

Conversion of numerical grades to final letter grades follows the [Dalhousie Grade Scale](#).

A+: (90–100)	A: (85–89)	A-: (80–84)
B+: (77–79)	B: (73–76)	B-: (70–72)
C+: (65–69)	C: (60–64)	C-: (55–59)
D: (50–54)	F: (0–49)	

## General Course Policies

- On exams, we recommend that answers be left in unsimplified form.
- Calculators will NOT be allowed during tutorial quizzes, the midterm or the final examination. In fact, only writing utensils (pencils, lead, erasers, pens, white-out) will be allowed.
- Information about the course may be given during class. It is the responsibility of the students to ensure that they are made aware of what occurs during classes.

## Course Policies on Missed or Late Academic Requirements

- Missed midterms or final exams can be made up, at the discretion of the course instructor for illness or equivalent official inability to write at the scheduled time and place. Please contact your instructor for more information or to request permission to write the scheduled make-up midterm or final exam.
- Missed tutorial quizzes **cannot be made up** under any circumstances. However, [Student Declaration of Absence forms](#) (maximum of 2) will be accepted for missed tutorial quizzes. SDAs should be completed, signed and e-mailed to Dr. Noble ([rnoble@dal.ca](mailto:rnoble@dal.ca)) within 3 days of the missed tutorial.

## Course Policies related to Academic Integrity

- Students are permitted to work together on the online assignments.
- No collaboration is permitted on tutorial quizzes, the midterm nor the final exam.

### Conduct in the Classroom - Culture of Respect

Substantial and constructive dialogue on challenging issues is an important part of academic inquiry and exchange. It requires willingness to listen and tolerance of opposing points of view. Consideration of individual differences and alternative viewpoints is required of all class members, towards each other, towards instructors, and towards guest speakers. While expressions of differing perspectives are welcome and encouraged, the words and language used should remain within acceptable bounds of civility and respect.

### Diversity and Inclusion - Culture of Respect

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness (Strategic Priority 5.2). Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner - perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.
