Lectures

Asynchronous: Beamer (PowerPoint like) presentations will be posted on BrightSpace three times per week, once on each of Monday, Wednesday and Friday, and will be designed to break down the material from the course notes into “lecture-sized” pieces.

Course Description

Topics include: congruences and residues; elementary properties of congruences, linear congruences, theorems of Fermat, Euler and Wilson, Chinese remainder theorem, quadratic residues, law of quadratic reciprocity, Legendre, Jacobi and Kronecker symbols, arithmetic functions, algebraic fields, algebraic numbers and integers, uniqueness of factorization, elementary properties of ideals, and class number.

Course Prerequisites

MATH 2040.03 (or MATH 2135.03)

Learning Objectives

The main goal of this course is to understand how to solve polynomial congruences modulo arbitrary moduli. This will require the use of most of the material presented in the course, detailed below in the “Course Content” section.

Course Materials

- Course notes (as well as all other important course materials) will be made available on BrightSpace.
Course Assessment

The Final Grade will be computed as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight (% of final grade)</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Take-Home” Midterm Exam</td>
<td>35%</td>
<td>October 26 – October 28</td>
</tr>
<tr>
<td>Final Exam</td>
<td>35%</td>
<td>(Scheduled by Registrar)</td>
</tr>
<tr>
<td>Assignments</td>
<td>30%</td>
<td>Weekly</td>
</tr>
</tbody>
</table>

Note: The assignments, midterm and final exam are to be written, with full solutions and submitted via e-mail.

Conversion of numerical grades to Final Letter Grades follows the Dalhousie Common Grade Scale

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>(90–100)</td>
</tr>
<tr>
<td>A</td>
<td>(85–89)</td>
</tr>
<tr>
<td>A-</td>
<td>(80–84)</td>
</tr>
<tr>
<td>B+</td>
<td>(77–79)</td>
</tr>
<tr>
<td>B</td>
<td>(73–76)</td>
</tr>
<tr>
<td>B-</td>
<td>(70–72)</td>
</tr>
<tr>
<td>C+</td>
<td>(65–69)</td>
</tr>
<tr>
<td>C</td>
<td>(60–64)</td>
</tr>
<tr>
<td>C-</td>
<td>(55–59)</td>
</tr>
<tr>
<td>D</td>
<td>(50–54)</td>
</tr>
<tr>
<td>F</td>
<td>(&lt;50)</td>
</tr>
</tbody>
</table>

Course Policies

- Missed assignments, midterms or final exams can be made up for documented illness / inability to participate at the given time.
- Collaboration during the midterm or during the final exam is not allowed. These components of the course must be completed independently.
- Students may collaborate on assignments, but must write up their own solutions, in their own words.

Course Content

The contents of the provided course notes will be covered. They consist of the majority of the sections of the textbook as well as some additional material:

1. Mathematical Induction and the Least Integer Principle
2. Integers ([Dud08, §1])
3. Unique Factorization ([Dud08, §2])
4. Linear Diophantine Equations ([Dud08, §3])
5. Congruences ([Dud08, §4])
6. Linear Congruences ([Dud08, §5])
7. Fermat’s and Wilson’s Theorems ([Dud08, §6])
8. The Divisors of an Integer ([Dud08, §7])
9. Perfect Numbers ([Dud08, §8])
10. Euler’s Theorem and Function ([Dud08, §9])
11. Primitive Roots ([Dud08, §10])
12. Quadratic Congruences ([Dud08, §11])
13. Quadratic Reciprocity ([Dud08, §12])
14. Pythagorean Triangles ([Dud08, §16])
15. Infinite Descent and Fermat’s Conjecture* ([Dud08, §17])
16. Sums of Squares ([Dud08, §18, 19] and [Ser73, Appendix to Ch. 4])
17. \(x^2 - Ny^2 = 1\)** ([Dud08, §20])

*As of 1994, and due to Andrew Wiles, “Fermat’s Conjecture” is now “Fermat’s Last Theorem.”

**This diophantine equation is known as “Pell’s equation.”

University Policies and Statements

This course is governed by the academic rules and regulations set forth in the University Calendar and by Senate.

Missed or Late Academic Requirements due to Student Absence

As per Senate decision instructors may not require medical notes of students who must miss an academic requirement, including the final exam, for courses offered during fall or winter 2020-21 (until April 30, 2021). Information on regular policy, including the use of the Student Declaration of Absence can be found here:

https://www.dal.ca/dept/university_secretariat/policies/academic/missed-or-late-academic-requirements-due-to-student-absence.html

Academic Integrity

At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (The Center for Academic Integrity, Duke University, 1999). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

Information:
https://www.dal.ca/dept/university_secretariat/academic-integrity.html
Accessibility

The Advising and Access Services Centre is Dalhousie’s centre of expertise for student accessibility and accommodation. The advising team works with students who request accommodation as a result of a disability, religious obligation, or any barrier related to any other characteristic protected under Human Rights legislation (Canada and Nova Scotia).

Information:
https://www.dal.ca/campus_life/academic-support/accessibility.html

Student Code Of Conduct

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don’t follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner—perhaps through a restorative justice process. If an informal resolution can’t be reached, or would be inappropriate, procedures exist for formal dispute resolution.

Code:

Diversity and Inclusion - Culture of Respect

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness.

Statement:
http://www.dal.ca/cultureofrespect.html

Recognition of Mi’kmaq Territory

Dalhousie University would like to acknowledge that the University is on Traditional Mi’kmaq Territory. The Elders in Residence program provides students with access to First Nations elders for guidance, counsel and support. Visit or e-mail the Indigenous Student Centre (1321 Edward St) (elders@dal.ca).
