

Faculty of Science Course Syllabus  
Department of Mathematics & Statistics  
Stat 2450

Introduction to Data Mining with R  
Winter, 2019

**Instructor(s):** Bruce Smith    bruce.smith@dal.ca    Chase 309

**Lectures:**    MW 2:35-3:55    LSC 240

**Course Description:** *This course provides an introduction to data mining and R programming, suited for science students. Data mining methods include a vast set of tools developed in different areas for identifying the patterns in data. Students will learn programming methods for manipulating and exploring data through learning the basic ideas of some clustering, regression and classification methods. No prior programming knowledge is assumed.*

**Course Prerequisites:** **MATH 1000.03 or MATH 1215.03 and either (STAT 1060.03 or MATH 1060.03) or (STAT 2060.03 or MATH 2060.03) or DISP**

**Course Materials**

- Required text: Textbook: “Introduction to Statistical Learning with Applications in R” by Gareth James, Daniela Witten, Trevor Hastie, and Robert Tibshirani, published by Springer ( Hard copy in bookstore, or available free online at <http://www.bcf.usc.edu/~gareth/ISL/index.html>)
- Lecture notes, assignments, etc., are at [http:// bsmith.mathstat.dal.ca/stat2450](http://bsmith.mathstat.dal.ca/stat2450)  
Assignments will require use of the statistical software package R, together with the program RStudio, and the Rmarkdown library. Directions for installing the software are at <http://bsmith.mathstat.dal.ca/stat2450/Notes/Rintro.html>

**Course Assessment**

Component	Weight (% of final grade)	Date
<i>Midterm exam</i>	20%	February 14, 7:00-9:00 PM, Dunn 117
<i>Final exam</i>	40%	(Scheduled by Registrar)
<i>Assignments</i>	8 assignments, each worth 5%, roughly every two weeks.	

**Conversion of numerical grades to Final Letter Grades follows the Dalhousie Common Grade Scale**

A+ (90-100)	B+ (77-79)	C+ (65-69)	D	(50-54)
A (85-89)	B (73-76)	C (60-64)	F	(<50)
A- (80-84)	B- (70-72)	C- (55-59)		

## **Course Policies**

Assignments are to be submitted at the beginning of class on the due date.

Late assignments will not be accepted.

It is expected that each student will write up their assignment independently. Students submitting identical assignments will receive a mark of 0 for that assignment.

If you are ill on the day of a test, you must advise me of this fact before the test, and you will need to submit a Student Declaration of Absence form before you can write a make-up test.

## **Course Objectives/Learning Outcomes**

*The broad goals of this course are twofold:*

*Firstly, to teach students R programming and some general scientific computing methods. Roughly the first half of course will be allocated to R programming, including: using R as a calculator, data types, data structures, external files, loops and flow control, conditional execution, user defined functions, and use of built in statistical/graphical functions.*

*Secondly, to introduce a number of concepts for statistical learning, including: multiple regression, CART, and clustering, supervised vs unsupervised learning, the bias variance tradeoff, performance evaluation, cross validation, and bootstrapping.*

### **University Policies and Statements**

**This course is governed by the academic rules and regulations set forth in the University Calendar and by Senate**

#### **Academic Integrity**

At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (The Center for Academic Integrity, Duke University, 1999). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

**Information:** [https://www.dal.ca/dept/university\\_secretariat/academic-integrity.html](https://www.dal.ca/dept/university_secretariat/academic-integrity.html)

#### **Accessibility**

The Advising and Access Services Centre is Dalhousie's centre of expertise for student accessibility and accommodation. The advising team works with students who request accommodation as a result of a disability, religious obligation, or any barrier related to any other characteristic protected under Human Rights legislation (Canada and Nova Scotia).

**Information:** [https://www.dal.ca/campus\\_life/academic-support/accessibility.html](https://www.dal.ca/campus_life/academic-support/accessibility.html)

#### **Student Code of Conduct**

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner—perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.

**Code:** [https://www.dal.ca/dept/university\\_secretariat/policies/student-life/code-of-student-conduct.html](https://www.dal.ca/dept/university_secretariat/policies/student-life/code-of-student-conduct.html)

#### **Diversity and Inclusion – Culture of Respect**

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness

**Statement:** <http://www.dal.ca/cultureofrespect.html>

#### **Recognition of Mi'kmaq Territory**

Dalhousie University would like to acknowledge that the University is on Traditional Mi'kmaq Territory. The Elders in Residence program provides students with access to First Nations elders for guidance, counsel and support. Visit or e-mail the Indigenous Student Centre (1321 Edward St) ([elders@dal.ca](mailto:elders@dal.ca)).
