

Faculty of Science Course Syllabus
Department of Oceanography
OCEA3002
Introduction to Chemical Oceanography
Fall 2024

Dalhousie University acknowledges that we are in Mi'kma'ki, the ancestral and unceded territory of the Mi'kmaq People and pays respect to the Indigenous knowledges held by the Mi'kmaq People, and to the wisdom of their Elders past and present. The Mi'kmaq People signed Peace and Friendship Treaties with the Crown, and section 35 of the Constitution Act, 1982 recognizes and affirms Aboriginal and Treaty rights. We are all Treaty people.

Dalhousie University also acknowledges the histories, contributions, and legacies of African Nova Scotians, who have been here for over 400 years.

Instructor(s): Markus Kienast, markus.kienast@dal.ca, LSC 5637

Lectures: Tue/Thu 14:35 – 15:55p, Riley Room (rm3652), 3rd floor Oceanography wing, LSC

Laboratories: n/a

Course Description

This course provides students with a basic understanding of the composition of seawater and the processes that lead to this composition. This understanding is both qualitative and quantitative through the use of thermodynamic, kinetic and box models to describe the balances that produce the observed chemical distributions.

Course Prerequisites

PREREQUISITES: [CHEM 1011.03](#) and [CHEM 1012.03](#) or equivalents, and [OCEA 2000.06](#) (or [OCEA 2001.03/2002.03](#)); [OCEA 2020.03](#); [OCEA 2021.03](#); or permission of instructor

EXCLUSIONS: OCEA 3170

Course Objectives/Learning Outcomes

The primary goals of this class are to understand

- how chemicals are distributed in the ocean;
- what processes (biological, geological, physical) act to cause these distributions;
- how the chemistry of the oceans affects the biology and geology of the ocean;
- how to make quantitative estimates about the chemical state of seawater and the transport of matter within the oceans.

Course Assessment

| Component | Weight (% of final grade) | Date |
|---------------------------------|---------------------------|------------|
| <i>Mid-term exam</i> | 20 | <i>tbd</i> |
| <i>Final exam</i> | 30 | <i>tbd</i> |
| <i>Assignments, 3-5</i> | 40 | <i>tbd</i> |
| <i>Attendance/participation</i> | 10 | |

Conversion of numerical grades to final letter grades follows the

Dalhousie Grade Scale

| | | | |
|--------------------|-------------------|-------------------|------------------|
| A+ (90-100) | B+ (77-79) | C+ (65-69) | D (50-54) |
| A (85-89) | B (73-76) | C (60-64) | F (0-49) |
| A- (80-84) | B- (70-72) | C- (55-59) | |

Course Policies

General class format and communication:

Students are expected to attend class and to read the reading material (textbook/ handouts/online material) as directed.

I do not respond well to e-mail, given the sheer volume of messages I receive every day. Students are encouraged to ask their questions in class, to see me before or after class, to drop by my office, or to arrange an appointment.

Assignments:

Students will generally have a week to complete an assignment, most often including a weekend. They are due at the end of class, not at the end of the day, and I will not generally answer questions concerning the assignment on the due date. Late assignments may get 10% off for each day late, and will not be accepted once the marking process has been completed.

Participation, plagiarism and cheating:

Students are encouraged, indeed required, to participate in class. However, each student must pass in their own assignment, reflecting their own work. Similarly, cheating and plagiarism will not be tolerated during the tests. You are expected to know and adhere to the Dalhousie Regulations on Academic Integrity, as outlined in the calendar.

Course Content

- 1) Review of chemistry and physics
 - 2) Properties of water
 - 3) Properties of seawater
 - 4) Major components of seawater
 - 5) Minor components
 - 6) Trace components
 - 7) Ocean exchanges with surrounding environments
-

University Policies and Statements

Recognition of Mi'kmaq Territory

Dalhousie University would like to acknowledge that the University is on Traditional Mi'kmaq Territory. The Elders in Residence program provides students with access to First Nations elders for guidance, counsel, and support. Visit or e-mail the Indigenous Student Centre at 1321 Edward St or elders@dal.ca. Additional information regarding the Indigenous Student Centre can be found at: https://www.dal.ca/campus_life/communities/indigenous.html

Internationalization

At Dalhousie, 'thinking and acting globally' enhances the quality and impact of education, supporting learning that is "interdisciplinary, cross-cultural, global in reach, and orientated toward solving problems that extend across national borders." Additional internationalization information can be found at: <https://www.dal.ca/about-dal/internationalization.html>

Academic Integrity

At Dalhousie University, we are guided in all our work by the values of academic integrity: honesty, trust, fairness, responsibility, and respect. As a student, you are required to demonstrate these values in all the work you do. The University provides policies and

procedures that every member of the university community is required to follow to ensure academic integrity. Additional academic integrity information can be found at:

https://www.dal.ca/dept/university_secretariat/academic-integrity.html

Accessibility

The Student Accessibility Centre is Dalhousie's centre of expertise for matters related to student accessibility and accommodation. If there are aspects of the design, instruction, and/or experiences within this course (online or in-person) that result in barriers to your inclusion, please contact the Student Accessibility Centre (https://www.dal.ca/campus_life/academic-support/accessibility.html) for all courses offered by Dalhousie with the exception of Truro. For courses offered by the Faculty of Agriculture, please contact the Student Success Centre in Truro (<https://www.dal.ca/about-dal/agricultural-campus/student-success-centre.html>)

Conduct in the Classroom – Culture of Respect

Substantial and constructive dialogue on challenging issues is an important part of academic inquiry and exchange. It requires willingness to listen and tolerance of opposing points of view. Consideration of individual differences and alternative viewpoints is required of all class members, towards each other, towards instructors, and towards guest speakers. While expressions of differing perspectives are welcome and encouraged, the words and language used should remain within acceptable bounds of civility and respect.

Diversity and Inclusion – Culture of Respect

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness (Strategic Priority 5.2). Additional diversity and inclusion information can be found at: <http://www.dal.ca/cultureofrespect.html>

Student Code of Conduct

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner - perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution. The full Code of Student Conduct can be found at:

https://www.dal.ca/dept/university_secretariat/policies/student-life/code-of-student-conduct.html

Fair Dealing Policy

The Dalhousie University Fair Dealing Policy provides guidance for the limited use of copyright protected material without the risk of infringement and without having to seek the permission

of copyright owners. It is intended to provide a balance between the rights of creators and the rights of users at Dalhousie. Additional information regarding the Fair Dealing Policy can be found at: https://www.dal.ca/dept/university_secretariat/policies/academic/fair-dealing-policy.html

Originality Checking Software

The course instructor may use Dalhousie's approved originality checking software and Google to check the originality of any work submitted for credit, in accordance with the Student Submission of Assignments and Use of Originality Checking Software Policy. Students are free, without penalty of grade, to choose an alternative method of attesting to the authenticity of their work and must inform the instructor no later than the last day to add/drop classes of their intent to choose an alternate method. Additional information regarding Originality Checking Software can be found at: <https://www.dal.ca/about/leadership-governance/academic-integrity/faculty-resources/ouriginal-plagiarism-detection.html>

Student Use of Course Materials

Course materials are designed for use as part of this course at Dalhousie University and are the property of the instructor unless otherwise stated. Third party copyrighted materials (such as books, journal articles, music, videos, etc.) have either been licensed for use in this course or fall under an exception or limitation in Canadian Copyright law. Copying this course material for distribution (e.g. uploading to a commercial third-party website) may lead to a violation of Copyright law.
