

SUSTAINABILITY CO-OP

**You know the time to create
a sustainable future is now.
They know how to make it happen.**

**DALHOUSIE
UNIVERSITY**

Science, Information
Technology, Engineering
Co-operative Education

THERE'S NEVER BEEN A MORE CRITICAL TIME TO ACT ON OUR MOST CHALLENGING SOCIAL AND ENVIRONMENTAL ISSUES.

Dalhousie's Sustainability Co-op students represent a new generation of solutions-minded leaders who are ready to change the world for the better.

From climate change to food security, sustainable energy to global inequality, this new generation of change agents are tackling today's real-world challenges head on.

An interdisciplinary program, students have the vast understanding, training and connections to bring their solutions to life.

Student skills and competencies include:

- Community engagement
- Lobbying for social change
- Knowledge of government structure
- Collaborating with diverse teams
- Critical thinking
- Problem solving
- Negotiation
- Research
- Environmental decision making

FOR THE FIRST TIME AT DALHOUSIE, HIRE A SUSTAINABILITY CO-OP STUDENT.
