

JD AND MASTER'S COMBINED DEGREES

NAME:	STUDENT NUMBER:
NAME OF COMBINED PROGRAM:	

Students in combined JD/Master's programs pay a program fee as opposed to a per-course fee. JD/Master's combined program students pay a program fee for both the Masters and the Law degree over four years. While combined degree students may benefit from a reduction of overall course requirements, the fee for the combined program is not reduced.

Combined degree students are required to inform both program administrators as soon as they decide to opt for the combined program. This ensures a minimal disruption to the student's academic record and student account. Submission of this completed form ensures combined program fees are charged as early as possible, if the form is submitted later than the first term of the four year program, appropriate fees are charged retroactively.
