

PATHOLOGY

Master of Science (MSc) Doctor of Medicine (PhD)

Pathology, the study of the essential nature of disease, uses a wide variety of approaches to elucidate mechanisms responsible for disease. Because of its close academic and clinical ties with the QEII Health Sciences Centre and the Izaak Walton Killam Health Centre for Children, Women and Families which provide tertiary care for the entire Canadian Maritime region, the Dalhousie Pathology Department is able to offer an unsurpassed milieu in which to pursue experimental pathology.

DAL.CA

Why study Pathology at Dalhousie?

RESEARCH STRENGTHS

- Clinical and Environmental Chemistry
- Hematopathology
- Immunology
- Molecular genetics
- Transplantation
- Closely tied to QEII Health Sciences Centre and IWK Health Centre

POTENTIAL CAREERS

- Academia
- Medicine
- Research

ADMISSION REQUIREMENTS

- Must satisfy the general requirements for admission to the Faculty of Graduate Studies.
- A- in last year of studies is required

LENGTH OF PROGRAM

MSc: typical time to complete is 2 years

PhD: typical time to complete is 4-6 years

APPLICATION DEADLINE

Same as the general application deadlines outlined by the Faculty of Graduate Studies (applications are accepted for September, January, and May admission).
