

PSYCHIATRY RESEARCH

Master of Science (MSc)

This is a full-time thesis based graduate program. It equips students with the skills and knowledge needed to succeed as professionals in clinical and neuroscience research concerning mental health and illness. Students will improve their skills in critical appraisal, study design, statistics, data analysis, and scientific writing.

DAL.CA

Why study Psychiatry Research at Dalhousie?

RESEARCH STRENGTHS

- clinical trials
- genetics
- neuroimaging
- participatory research
- psychotherapy
