

[IPR.Global COVID-19 Impact Global Survey](#)

Dear Interprofessional Colleagues,

On behalf of the InterprofessionalResearch.Global (IPR.Global), we would like to invite you to join us in our global effort to map the impacts of the COVID-19 pandemic on interprofessional education and collaborative practice (IPECP) around the globe by completing the [COVID-19 Impact Global Survey](#).

The purpose of the study is to collect global observations/experiences, and to examine perceptions regarding the impact of the COVID19 pandemic on the planning, delivery, and evaluation of, and policy developments related to interprofessional education (IPE) and collaborative practice (CP) globally.

The survey completion will be fully anonymous with no personal information collected; rather the survey questions ask about your views and experiences with regard to the impact of the COVID19 pandemic on IPE and/or CP within your institution/organization and region. We have received [ethics clearance](#) for this survey study.

The survey, as a longitudinal survey, will take approximately 10 to 15 minutes to complete. You will be invited to revisit your responses in a few months' time to help collecting your observations/experiences/reflection on this rapidly changing situation and its impacts on interprofessional education and/or collaborative practice.

We thank you for taking the time to participate in [this global survey](#), your responses are very valuable to the current and future of global IPECP during and post-pandemic. Please visit us at <https://research.interprofessional.global/covid19-survey/> to learn more and participate in the survey.

Please feel free to widely share and distribute this email/survey with your colleagues, networks and connections.
