	<i>Responsible Unit:</i>	<i>Amendments:</i> Formatting, March 2018

Students enrolled in entry-to-practice graduate programs of study in the Faculty of Health are advised that they may have to do some or all of their required clinical education/fieldwork at sites outside Halifax, and hence may have to incur additional personal expenses for travel and temporary accommodation.

In some situations, sites may require a payment to the site for support of clinical education/fieldwork supervision, and some sites may require separate disability insurance in lieu of eligibility for Worker Compensation coverage.

Such costs are the responsibility of the student.
