

Dear Regional, National and International Leaders, Educators, Researchers, Networks, and Colleagues:

The InterprofessionalResearch.Global (The Global Network for Interprofessional Education and Collaborative Practice Research) and the Interprofessional.Global (The Global Confederation for Interprofessional Education and Collaborative Practice) have released "Guidance on Global Interprofessional Education and Collaborative Practice Research: Discussion Paper"

This Discussion Paper was developed by number of world-renowned IPECP experts over the last year to stimulate further discussion on global IPECP research. The Discussion Paper offers perspectives to inform discussions around the global research agenda for IPECP by identifying research priorities and providing guidance on theoretical frameworks, research methodologies, and composition of research teams. A proposed lexicon for the interprofessional field is also provided as an appendix. The lexicon serves as a working document towards developing consensus on terminology related to interprofessional education, learning, practice, and care.

Follow this link to read and/or download the Discussion Paper and its Appendix interprofessional lexicon <https://research.interprofessional.global/>.
