**MEINHARD DOELLE**

In honour of our late colleague Professor  
Meinhard Doelle, the Marine & Environmental  
Law Institute invites you to a roundtable  
discussion on the future of environmental  
assessment, a topic dear to Meinhard’s life work.  
The roundtable will feature a diverse set of  
contributors, both in person and hybrid, who  
worked closely with Meinhard over the years  
including former students and colleagues from  
across Canada. What promise might the next,  
next generation of impact assessment law hold  
for the future of Canadian environmental law?
