

Tips for Adding Logos / Pictures

How Do I Add a Logo / Picture

- You must be in Layout Mode
- Insert Dropdown – Picture
 - Locate the directory and file to be added
- Move to desired location by clicking on arrow and dragging it to desired location

Tips

- Request accurate logos.
 - Copying them from a webpage often doesn't have very good resolution and will look pixelated.
- Make sure that you have an image format that can be brought into ArcGIS
 - .jpg, .gif, .tif, .emf, .bmp, .png, .jp2
