

POLI 1103X/Y: Introduction to Government and Politics
Fall-Winter – 2019/2020 – Dalhousie University
Mondays, Wednesdays, Fridays -- Henry Hicks Building, Room # 217

Instructor: Dr. M. Firmini

Office: Henry Hicks Building, Political Science Department

Office Hours: By Appointment

Email: Marcella.Firmini@dal.ca

This course is a general introduction to the study of politics. In this introductory course, you will be exposed to the fundamental concepts of political life. It will introduce you to a range of key issues and approaches that animate contemporary politics. Topics addressed will include:

- Fundamental concepts in political science;
- Political philosophies and the bedrocks of various ideologies;
- The nature and limits of democracy;
- The relationship between citizenship and political power;
- Forms of political participation and electoral systems;
- The relationship between politics and the media.

The course will begin by centering on the basic themes and concepts that help us analyze ‘politics’, society, political values, and institutions, and then moves to apply and understand those concepts as they relate to the Canadian context. It does so through a three dimensional approach:

1. Political Thought: What is ‘politics’? What is ‘political science’? What is the source of Canadian ways of thinking about ‘politics’ and ‘society’?

2. Political Institutions and ‘actors’: What are the rules (both informal and formal) that dictate what is permissible to, and desirable for, these ‘entities’ to do? How do the institutions of the state work? How do they affect us? How did we get to these rules? How does Canada understand and apply them? Do they still matter?

3. Political values and outcomes: *What* do we want from politics? *Why* do we want those particular things? Do ‘politics’ and how we think about it matter? Does ‘politics’ affect our everyday life? Does it matter in Canada and in Canadian society? Why (or why not)?

Textbook and Readings:

- *Introduction to Politics* – Robert Garner, Peter Ferdinand, Stephanie Lawson, David B. MacDonald. Oxford University Press, 2nd Canadian Edition.
- *How Canadians Govern Themselves* – Eugene Forsey. (Canadian Heritage). REQUIRED FOR SECOND SEMESTER. **Provided on BrightSpace**
- Other **required** readings, articles, and other works posted to Bright Space.

Students are expected to do ALL readings which WILL BE part of the exams, quizzes, tests, and class discussions.

Learning Objectives:

The course aims to

- introduce students to the main concepts and themes that animate political science — their provenance, their content, their development, their contemporary relevance; their Canadian application;
- introduce students to mechanisms through which political preferences are formed, how those affect society, political structures and institutions in general and specifically in Canada; how the processes play out in Canada: elections, voting patterns, political parties, and electoral systems;
- describe and analyze how political institutions work, particularly the Canadian parliamentary system, federalism, and the powers of the executive, the legislative, and the judiciary;
- strengthen *critical* and *independent* thinking capacities;
- refine skills related to the evaluation of empirical evidence derived from literature produced in the discipline;
- lay the foundations which will prepare students for more advanced courses in political science.

Knowledge & Skills Acquisition & Application — Objectives:

At the end of this course, students will be expected to be capable of competently

- explaining the main concepts related to the discipline of political science and apply them to real-life situations through independent analysis and critical thinking;
- explaining the basic difference and importance between quantitative and qualitative methods in political science;
- describing basic political philosophies (and their development) and recognize them in speech and/or thought when read or heard in the news or other outlets/venues; explaining their relevance to Canada;
- recognizing and explaining diverse ideological paradigms;
- explaining political preferences and their derivation;
- describing different institutional arrangements, systems and regimes;
- describing the institutional arrangements, structures, and functions in Canada;
- recognizing and explaining electoral systems, political parties, and voting behaviour in Canada;

Statement on Academic Integrity (Source: Dalhousie University):

“At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (*The Center for Academic Integrity, Duke University, 1999*). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

What does academic integrity mean?

At university we advance knowledge by building on the work of other people. Academic integrity means that we are honest and accurate in creating and communicating all academic products. Acknowledgement of other people's work must be done in a way that does not leave the reader in any doubt as to whose work it is. Academic integrity means trustworthy conduct such as not cheating on examinations and not misrepresenting information. It is the student's responsibility to seek assistance to ensure that these standards are met.

How can you achieve academic integrity?

[T]he following are *some ways* that you can achieve academic integrity:

- Make sure you understand Dalhousie's policies on academic integrity (<http://academicintegrity.dal.ca/Policies/>)
- Do not cheat in examinations or write an exam or test for someone else
- Be sure not to plagiarize, intentionally or unintentionally
- Clearly indicate the sources used in your written or oral work. This includes ideas, figures of speech, graphical representations, diagrams, videos, and images.
- Do not use the work of another from the Internet or any other source and submit it as your own
- When you use the ideas of other people (paraphrasing), make sure to acknowledge the source
- Do not submit work that has been completed...previously [and] submitted for another assignment

Where can you turn for help?

If you are ever unsure about any aspect of your academic work, contact me (or the TA); also:

- Academic Integrity website <http://academicintegrity.dal.ca/>
- Writing Centre

(http://www.dal.ca/campus_life/student_services/academic-support/writing-and-study-skills.html)

I am *required* to report every suspected offence... If you are found guilty of an offence, a penalty will be assigned ranging from a warning, to failure of the assignment or failure of the class, to expulsion from the University. Penalties may also include a notation on your transcript that indicates that you have committed an academic offence. All students in this class are to read and understand the policies on academic integrity and plagiarism referenced in the Policies and Student Resources sections of the academicintegrity.dal.ca website. *Ignorance of such policies is no excuse for violations*".

Plagiarism, therefore, is considered a serious academic offence. *No excuse is acceptable for plagiarism and NO AMOUNT OF PLAGIARISM WILL BE TOLERATED AND THUS WILL BE REPORTED IMMEDIATELY.*
