DESCRIPTION

We are on the business of offering explanations. Explanations about politics. This course examines key philosophical issues in the analysis of politics. The course differentiates from other political science courses, which focus on institutions (parliament, political parties, etc.), institutional power (legislature, executive, etc.) and political processes (electoral system, public policy, etc.), in so far as it examines the philosophical background of key approaches and theoretical frameworks. The general aim is to understand how political enquiry is carried out at a qualitative level.

We start by discussing various definitions of politics and how - together with scientific thought – they set the basic analytical parameters of political science. We then examine the debate of structure and agency, which often shapes how explanations can focus on political actors or their surrounding context. Discussions, then, turn towards analyses of how political systems are able to maintain themselves in place or suffer rupture and dramatic changes.

This course is heavily focused on theoretical approaches, from which political enquiries are made. We discuss Marxism, Rational Choice Theory, Institutionalism, Feminism, Poststructuralist thought, Political Psychology and Constructivism. The aim is to create a strong conceptual base to carry out political analysis.

The second part of the course discuss the difference between Ontology, Epistemology and methodology in Political Science. It is important for students to understand questions on the nature of political and social relations, how knowledge is established and methods to carry out political inquiry.

OBJECTIVES
- To introduce keys concepts, approaches and themes in the analysis of politics.

- To introduce theoretical tools with which one can make critical analysis in the domain of politics.

- To enable students to proceed into further study of the various areas of political science at graduate level.

The assignment requires a minimum of four sources, which should not be drawn from the course lectures or textbook. Students are also responsible to keep an extra copy of the paper; in case the professor requests it. Failure to provide an extra copy of the paper on request will lead to an ‘F’ for the assignment.

The essay is due in class. Late papers will be penalized 5% per day, for a maximum of three normal calendar days, after which the assignment will received 0%.
