### **Brief Teaching Philosophy Statement:**

I was and continue to be drawn to teaching at the university level because it is an excellent complement to my professional responsibilities with the Government of Nova Scotia. Moreover, the opportunity to provide students with practical, real-life perspectives on how government organizations work is a direct benefit to the university, our city, province and country. Assisting youth is my prime motivator to teach, and it provides me with significant personal and professional satisfaction. Teaching at the university level keeps me up to date on current literature and research, and I am also energized by being on campus, interacting with students and networking with faculty. I am challenged by today's students and encouraged by their depth of knowledge.

I teach with a great deal of enthusiasm in the hope that this will inspire my students. I also want to be as engaging as possible, because I want students to be stimulated by the course content and not preoccupied with their smart phone devices or other distractions. This approach has resonated with my students and my attendance figures are consistently high. I want my students to become good writers, to feel comfortable in participating in class discussion and small group activities and presentations. I balance this strategy with practical examples that I draw on from my career in the Nova Scotia Public Service.

I strive to treat all students with respect and be sensitive to their opinions. This approach is critical in gaining the respect of your students and maintaining a high level of credibility in the classroom. I make every effort to be available to students outside of the classroom and I regularly encourage students to communicate with me with course related questions. I enjoy interacting with my students and getting to know them. This in my view is one of the more gratifying elements of teaching in a university.

### **Course Description:**

As described in the 2021-22 Academic Calendar, this course is an introduction to the social, economic, and participatory dynamics that drive Canadian politics. It covers political culture, regionalism, political economy, interest groups, social movements, and elections. Federalism is central to all these topics, as we study the role of Quebec nationalism in the federation's evolution, the relationship between the Charter of Rights and Freedoms and federalism, the place of emerging "orders of government" (including Aboriginal governments), and debates concerning the causes and consequences of centralization and decentralization in the Canadian federation.

**Learning Outcomes:**

By the end of the course, the student should be able to:

- to understand why Canada adopted a federal model of governance;
- to explore the evolution of federalism in Canada and assess whether it has remained the same;
- to explain how Canadian federalism works from the inside in the form of executive federalism;
- to communicate confidently and effectively with your classmates so as to impart knowledge and understanding of the course material; and
- to increase student confidence and skills for conducting research and writing papers.

**Instructional Approach:**

POLI 2210 will comprise regular and meaningful interaction between students and the Professor. As such, students are to prepare by completing the assigned readings and actively participate in the on-line discussions. The on-line sessions may incorporate some additional learning technologies that will contribute to student learning and understanding as well as providing source material for on-line discussion and debate.

POLI 2210 will be delivered as **Asynchronous**, which means course content is on Brightspace and you are self-paced through course lessons (e.g., lectures, written content that you can review, discussion boards, etc.).

Students are encouraged to approach the Professor with any questions and / or concerns at any time.

**Minimal Technical Requirements:**

The minimal technical requirements for POLI 2210 are: workable technology, i.e., laptop or desk-top computer and a secure internet connection.

**Learning Management System Site Information:**

This course will be delivered online via Brightspace, which can be accessed at the dal.ca homepage or at <https://dal.brightspace.com>.

## INTRODUCTORY

### *Self-Introduction – May 13 - 3%*

Discussion: Introduce yourself to me and to your fellow classmates.

This discussion post is to be presented in paragraph form, be at least one–page in length (single spaced), include a recent photo, i.e., a head-shot, and ideally address the following:

1. Name, number of years in University and number of years since high school graduation.
2. Where are you from?
3. What contribution do you want to make to your community, society, family, etc.
4. Why are these contributions important to you?
5. What types of volunteer and sport activities are you involved in?
6. *Aside from attaining a good grade*, what are your expectations for POLI 2210?
7. Any particular issues / topics you would like to see addressed?
8. What could the Professor do to support your learning?
9. Which media stories have you been following recently? (minimum of 3 examples)
10. Confirm that you have read the Course Syllabus and accept it as the Learning Contract for POLI 2210.

## ON-LINE PARTICIPATION

### *Weekly Discussions – 3 weeks x 7% each = 21%*

You are required to participate in **all** online discussions. Each online discussion will comprise an **Initial Posting** on the discussion topic and at least two **Response Postings** / comments - either in response to a classmate's posting or as an augmentation of your initial posting.

Focused online discussions allow students to express their understanding of information addressed in each of the Weekly Discussions, to discuss that information with classmates and their instructor, and to integrate the results of those discussions into their own learning.

#### **Initial posting (200-250 words)**

Choose one question from the list of questions provided for each Weekly Discussion. Post a written response to the chosen question highlighting the connection between your answer to the discussion posting question and the course materials and class discussion on the topic. Your posting is to be logically written with good grammar and sentence structure.

#### **Response Postings (100-150 words each)**

Read the postings of your classmates and respond to at least **two** postings either in response to a classmate's posting or as an augmentation of your initial posting. Present additional / alternate perspectives or, if you agree or disagree with them, explain why.

You are expected to be an active participant in the discussions. A quality comment should build on another student's posting, your own or add an additional point of view that references the text, course readings or some other reference material.

Your grade for this part is to be assessed on the extent to which your answer draws on the materials in the course and the relevance of your comments. Students should review the comments of all classmates and are encouraged to continue discussion in the module forum as you would in a lecture in a classroom.

### *Evaluation Criteria*

Discussion Postings (includes Initial and Response Postings) will be graded per the following criteria:

1. **Demonstrates an understanding of a course concept.** This applies to your Initial and Response Posts, and includes the following elements:
  - a. Are your posts relevant to the assigned topic and question?
  - b. Do your posts demonstrate accurate understanding of course material (Marland and Wesley text (2e) and supporting materials located on Brightspace)?
  - c. Does the subject field convey the essence of your post (in less than 10 words)?

***Important Note for Quality Posts:*** While your posts will often draw on experience and informed opinions, the most successful posts will support personal opinions with reference to course material.

2. **Advances the discussion by adding new knowledge.** This applies to your response posts, in which you should try to broaden the perspective presented in another post by building on their ideas or pushing those ideas in a new direction. Some possible ways to do this are:
  - a. Apply references to course material / theoretical concepts.
  - b. Provide a counterexample based on personal / practical experiences that refute or weaken the position taken by the initial author (e.g., I hear you say this..., but my experience suggests this...).
  - c. Apply a related concept from the course that the initial post did not reference.
  - d. Apply a related example from current events or some other resource.
3. **Have uploaded your Initial Post and Response Posts by the stated dates.** Waiting until the last minute to make a required post can decrease the quality of the conversation about the topic. Posting earlier allows other students and me the opportunity to respond to a post and engage in debates that help everyone in the class get the most out of the conversation.

## QUIZZES

*May 16, May 24 and May 30 – 3 X 8% each = 24%*

There will be three Quizzes comprising Multiple Choice and True and False type questions.

Each Quiz is worth 8% of your total grade, and there are 60 questions for each Quiz.

Each Quiz will be made available beginning at 12 PM Atlantic Daylight Time (ADT) the date it is scheduled, and close at 11:59 PM (ADT) the same day.

You will have **90-minutes** to complete each Quiz from start to finish.

The Quizzes are “open book”, but you **may only refer to course material**, including your own notes from the course, the Marland and Wesley (2e) text, or any material on Brightspace for assistance.

You are to work independently and not consult with any other classmate, student or person regarding the Quizzes. Any evidence of collaboration with another classmate, student or person, will result in a grade of zero.

You are **not** to consult any external resources. This includes internet searches, materials from other classes, shared Google documents, books, or notes you have taken in other classes.

## INDIVIDUAL WRITING ASSIGNMENTS

### **Ground Rules:**

As with face-to-face conversations, appropriate online communication etiquette is expected.

Some examples are:

- Emails: put the topic in the Subject and your name at the end.
- Don't write messages in all capital letters; this can be perceived and interpreted as shouting.
- Grammar and spelling are important. Online courses demand the same standard of academic communication as face-to-face delivery.
- Avoid unkind, public criticism of others on the Discussion Boards.
- Use sarcasm cautiously. In the absence of non-verbal clues such as facial expressions and voice inflections, your message may be misinterpreted.
- Never use profanity in any area of the course.
- Be careful what you put in writing. Though you may send an email to a single person, it is very easy to forward your messages to others.

In addition, the following are considered **unethical behaviours** in this course:

- Telling or lobbying me for a certain grade;
- Asking for extra assignments or different weightings for the purpose of raising your grade;
- Making fraudulent excuses to postpone exams or assignments; and
- Having someone impersonate you, do your work for you, or sign your name on work you did not do.

### **University Grading Practices**

The [Grading Practices Policy](#) outlines the university's commitment and professors' responsibilities on how grading will be achieved. The policy applies to all credit-bearing courses at both the undergraduate and graduate levels at the university.

### **Academic Integrity:**

At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (The center for Academic Integrity, Duke University, 1999). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

Dalhousie offers many ways to learn about academic writing and presentations so that all members of the University community may acknowledge the intellectual property of others. Knowing how to find, evaluate, select, synthesize and cite information for use in assignments is called being “information literate”. Information literacy is taught by Dalhousie University Librarians in classes and through Dalhousie Libraries’ online [Citing & Writing](#) tutorials.

Do not plagiarize any materials for this course. For further guidance on what constitutes plagiarism, how to avoid it, and proper methods for attributing sources, please consult the University Secretariat’s [Academic Integrity](#) page.

Please note that Dalhousie subscribes to a plagiarism detection software that checks for originality in submitted papers. Any paper submitted by a student at Dalhousie University may be checked for originality to confirm that the student has not plagiarized from other sources. Plagiarism is considered a very serious academic offence that may lead to loss of credit, suspension or expulsion from the University, or even the revocation of a degree. It is essential that there be correct attribution of authorities from which facts and opinions have been derived. At Dalhousie, there are University Regulations which deal with plagiarism and, prior to submitting any paper in a course, students should read the Policy on [Intellectual Honesty](#) contained in the Calendar.

Furthermore the University’s Senate has affirmed the right of any instructor to require that student assignments be submitted in both written and computer readable format, e.g.: a text file or as an email attachment, and to submit any paper to a check such as that performed by the plagiarism detection software. As a student in this class, you are to keep an electronic copy of any paper you submit, and the course instructor may require you to submit that electronic copy on demand. Use of third-party originality checking software does not preclude instructor use of alternate means to identify lapses in originality and attribution. The result of such assessment may be used as evidence in any disciplinary action taken by the Senate.

### **ACCESSIBILITY**

The Student Accessibility Centre (Halifax Campus) and the Student Success Centre (Agricultural Campus) are Dalhousie’s centres of expertise on student access, inclusion, and accommodation support. We work collaboratively with students, faculty, and staff to create an inclusive educational environment for students.

If there are aspects of the design, instruction, and/or experiences within this course that result in barriers to your inclusion please contact the [Student Accessibility Centre](#) (dal.ca/access) and/or make arrangements to discuss with the instructor.

Please note that your classroom may contain accessible furniture and equipment. It is important that these items remain in the classroom, undisturbed, so that students who require their use will be able to fully participate.

### [STUDENT CODE OF CONDUCT](#)

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner—perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.

### [DIVERSITY AND INCLUSION – Culture of Respect](#)

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness (Strategic Priority 5.2).
