**Course Summary**

Political Science 2410 is, along with Political Science 2420, an introduction to political philosophy, and to the development of moral and conceptual ideas underlying modern politics. Both classes will examine some of the most important normative issues in the history of modern western political thought, and will investigate how these questions underlie most of today’s political debates. Specifically, they will trace the development of modern liberalism, the challenges to liberalism in the past three and a half centuries, and the roots of the contemporary contradictions within modern liberal thought.

Statement on Academic Integrity

At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (The Center for Academic Integrity, Duke University, 1999). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

What does academic integrity mean?
At university we advance knowledge by building on the work of other people. Academic integrity means that we are honest and accurate in creating and communicating all academic products. Acknowledgement of other people’s work must be done in a way that does not leave the reader in any doubt as to whose work it is. Academic integrity means trustworthy conduct such as not cheating on examinations and not misrepresenting information. It is the student’s responsibility to seek assistance to ensure that these standards are met.

How can you achieve academic integrity?
We must all work together to prevent academic dishonesty because it is unfair to honest students. The following are some ways that you can achieve academic integrity; some may not be applicable in all circumstances.
• Make sure you understand Dalhousie’s policies on academic integrity (see http://academicintegrity.dal.ca/Policies/)
• Do not cheat in examinations or write an exam or test for someone else
• Do not falsify data or lab results

Be sure not to plagiarize, intentionally or unintentionally, for example...
• Clearly indicate the sources used in your written or oral work. This includes computer codes/programs, artistic or architectural works, scientific projects, performances, web page designs, graphical representations, diagrams, videos, and images
• Do not use the work of another from the Internet or any other source and submit it as your own
• When you use the ideas of other people (paraphrasing), make sure to acknowledge the source
• Do not submit work that has been completed through collaboration or previously submitted for another assignment without permission from your instructor (These examples should be considered only as a guide and not an exhaustive list.)

**What will happen if an allegation of an academic offence is made against you?**

As your instructor, I am required to report every suspected offence. The full process is outlined in the Faculty Discipline Flow Chart (see [http://senate.dal.ca/Files/AIO_/AcademicDisciplineProcess_Flowchart_updated_July_2011.pdf](http://senate.dal.ca/Files/AIO_/AcademicDisciplineProcess_Flowchart_updated_July_2011.pdf)) and includes the following:

- Each Faculty has an Academic Integrity Officer (AIO) who receives allegations from instructors
- Based on the evidence provided, the AIO decides if there is evidence to proceed with the allegation and you will be notified of the process

- If the case proceeds, you will receive a PENDING grade until the matter is resolved
- If you are found guilty of an offence, a penalty will be assigned ranging from a warning, to failure of the assignment or failure of the class, to expulsion from the University. Penalties may also include a notation on your transcript that indicates that you have committed an academic offence.
