

INTERNATIONAL DAY OF WOMEN AND GIRLS IN SCIENCE

Dr. Jessica Campbell, a Defence Scientist with Defence Research and Development Canada (DRDC), will be hosting a virtual Q&A session at

2 P.M. (ATL) | FEB. 11 2021
THURSDAY

Dr. Campbell is a Nova Scotian who has pursued her training and science career within the province: a graduate of Prince Andrew High School in Dartmouth, with a B.Sc. degree in Physics and Mathematics from Saint Mary's University, a Ph.D. in Physics from Dalhousie University, and a M.Sc. in Computing and Data Analytics from Saint Mary's. Dr. Campbell researches machine learning and artificial intelligence with DRDC's Maritime Decision Support team.

In this interactive session, Dr. Campbell will speak about her own journey to finding fulfilling work in the STEM field and answer questions from participants.

The International Day of Women and Girls in Science has been celebrated on Feb. 11 since 2016 to encourage gender equality in science.
