FUNDING OPPORTUNITIES

From September 29 to October 27, 2022

- [Centre for Research on Pandemic Preparedness and Health Emergencies: Canadian Post COVID-19 Condition Research Network](#)
- [National Women's Health Research Initiative: Pan-Canadian Women's Health Coalition - Hubs](#)
- [Evaluation of population-level interventions to reduce inappropriate antimicrobial use and prevent the spread of resistant pathogens](#)
- [2023 CIHR-IA Summer Program in Aging](#)
- [Team Grant: THINC Implementation Science Team Grants](#)
- [Other : Network Grants in Skin Health, Bone Health, and Muscular Dystrophy](#)
- [Operating Grant : Evaluation of population-level interventions to reduce AMR](#)

View these opportunities in the [CIHR Funding Opportunity Database](#).

CATALYST GRANT: HEALTHY YOUTH

CIHR's Institute of Human Development, Child and Youth Health recently launched the Healthy Youth Catalyst Grants competition as part of the first phase of its Healthy Youth Initiative.

In addition to overall funding relevant to Canada's Youth Policy, separate funding pools will support the following priority research areas:

- Physical health of youth
- 2SLGBTQI+ youth
- Indigenous (First Nations, Métis, Inuit, and/or Urban Indigenous) youth
- Adolescent sexual and reproductive health

The deadline for applications is **November 15, 2022**.

Improving accessibility and eliminating systemic ableism

in Canada's health
research funding system

JUST LAUNCHED! CIHR SURVEY ON ABLEISM AND BARRIERS TO ACCESSIBILITY IN THE HEALTH RESEARCH FUNDING SYSTEM

Are you a health researcher, trainee or student who has experienced ableism or barriers related to accessibility? Or are you a person who has supported others with navigating the health research funding system? CIHR invites you to complete a survey to inform our action plan on accessibility.

SHARE YOUR STORY: CONTRIBUTE TO CIHR'S HEALTH RESEARCH DIGITAL STORYBOOK

Health research is one of the most important investments we can make as a nation. We want to hear from both independent researchers and trainees: how is your health research project improving the lives of Canadians?

These stories are published on The Faces of Health Research webpage, a crowd-sourced digital storybook of health researchers conducting work across the country.
