

Webinar: August 12, 2020 at 1:00 PM ET

In order to strengthen the culture of data stewardship in Canada, RDC offers webinars on subjects related to research data management, curation, and preservation.

You are invited to our upcoming webinar:

RDA COVID-19 Guidelines and Recommendations on Data Sharing

Presented by RDA COVID-19 Working Group Co-Chairs: Natalie Harrower, Mark Leggott

In late March, 2020, Research Data Alliance (RDA) was requested by the European Commission to create global guidelines and recommendations for data sharing in the context of the COVID-19 pandemic, leading to the formation of the RDA COVID-19 Working Group (CWG). By April, over 600 data professionals and domain experts were working collaboratively on this monumental task, and by June 30th, RDA published the final version of the [RDA COVID-19 Recommendations and Guidelines on Data Sharing](#) (for more information, see [The Value of RDA for COVID-19](#)).

Join Research Data Canada (RDC), RDA, and presenters Natalie Harrower and Mark Leggott (CWG Co-Chairs) for an hour long webinar that delves into the process and outputs of the RDA COVID-19 Working Group, and the value and impact of the guidelines and recommendations in the present COVID-19 circumstances and in future health crises. The webinar will also cover the upcoming series of guides and navigational tools that are in development to further facilitate access to the full set of detailed guidelines.

Please note that this webinar will be presented in English.
