## **Improving Transitions from the Emergency Department to Home by Engaging and Partnering with Parents**

*Speaker: Dr. Andrea Bishop, Postdoctoral Fellow, Strengthening Transitions in Pediatric Care ([www.strengtheningtransitionsincare.com](http://www.strengtheningtransitionsincare.com))*

1. What do parents want to know when being discharged home to care for their child?
2. How can we include parents in designing discharge communication interventions to improve care?
3. How can we support better communication between health care providers and parents during this transition?

Come to this exciting new series of talks hosted by Research Services. Each month, a clinician-researcher from the Health Centre will present their research. This discussion will be appropriate to an audience with a wide range of backgrounds.

We encourage fellow clinicians, researchers, administrative staff, managers, and the public to attend.
