

Come see where research is heading at the IWK **RESEARCH ROUNDS**

Ask questions, and be a part of the discussion

DATE: Thursday, November 2nd, 2017 (at 9:00am-10:00am)

LOCATION: Cineplex O.E. Smith Theatre

For questions, please contact: idr@iwk.nshealth.ca

FREE AND OPEN TO THE PUBLIC

Something Fishy Is Going On: Using the Zebrafish to Model Childhood Cancers and Other Rare Genetic Disorders

Speaker: Dr. Jason Berman, Professor, Departments of Pediatrics, Microbiology & Immunology, and Pathology; Director, Clinician Investigator Program and Graduate Program in Medical Research, Dalhousie University

1. What is the difference between a germline and a somatic mutation?
2. Why is the zebrafish such a versatile model for studying human genetic diseases?
3. What are some of the common side effects of chemotherapy that contribute to long term disabilities?

Come to this exciting new series of talks hosted by Research Services. Each month, a clinician-researcher from the Health Centre will present their research. This discussion will be appropriate to an audience with a wide range of backgrounds.

We encourage fellow clinicians, researchers, administrative staff, managers, and the public to attend.
