

Come see where research is heading at the IWK

RESEARCH ROUNDS

Ask questions, and be a part of the discussion

DATE: October 5th, 2017 (at 9:00am-10:00am)

LOCATION: Cineplex O.E. Smith Theatre

For questions, please contact: idr@iwk.nshealth.ca

FREE AND OPEN TO THE PUBLIC

Forging New Discoveries Toward Infant Pain Assessment and Management

*Speaker: Britney Benoit, PhD Candidate, School of Nursing, Dalhousie University;
Mechanisms, Outcomes, and Mobilization of maternally-Led Interventions in Newborn
Care Lab, IWK Health Centre (www.momlinc.ca)*

1. Should we be looking at the brain to assess newborn pain?
2. What are the strengths and limitations of current brain-based newborn pain assessment methods?
3. How can we determine the brain response of newborns, to pain and pain-reducing interventions, in a clinically relevant and feasible way?

Come to this exciting new series of talks hosted by Research Services. Each month, a clinician-researcher from the Health Centre will present their research. This discussion will be appropriate to an audience with a wide range of backgrounds.

We encourage fellow clinicians, researchers, administrative staff, managers, and the public to attend.
