## WE'RE ASKING YOU TO JOIN US!

The clinical community is critical to enabling student learning, and progress through the MScPT entry to practice program. Our programming currently requires more offers for the June 17 – July 26, 2024 period for our year 1 students on their second placement.

### Why become a clinical educator?

There are many benefits to becoming a clinical educator like:

- staying current with knowledge and best practice
- connecting you to the next generation of clinicians
- contributing to the profession and teaching
- developing your leadership skills
- energizing you in your own work
- collecting continuing education credits
