

ACTEAST
*Atlantic Canada Together
Enhancing Acute Stroke Treatment*

NIHSS

NIHSS Completed on all Stroke Patients

NIH Stroke Scale has many benefits

NIH STROKE SCALE FOR ACTEAST

BENEFITS

- Pre-treatment NIHSS allows for a **standardized measure of stroke severity**
- Allows clinicians to **determine if a patient is getting better or worse**
- Allows for inclusion in **high quality research**
- Can be **completed quickly** prior to treatment

ACTEAST

- ACTEAST is a CIHR Funded research project
- ACTEAST aims to improve access and efficiency of acute ischemic stroke treatment across all four Atlantic Provinces
- NIHSS is a necessary measure for ACTEAST for all ischemic stroke patients that receive treatment
- Be a part of leading stroke research

YES, THERE IS AN APP FOR THAT!
