SECTION IV: PROFESSIONAL/CLINICAL ACTIVITIES

1) Clinic Development and Leadership (2001-2020)

Co-Founder and Director of the Colchester East Hants Attention Deficit/Hyperactivity Disorder Clinic at Colchester Regional Hospital which involves the following unique service delivery features:

- A formal partnership between the Colchester East Hants Health Authority and Chignecto-Central Regional School Board
- An interdisciplinary team that includes clinical psychologists, pediatricians, psychiatrists, school psychologists and educators
- Development and training of clinic members on parent and teacher diagnostic tools
- Development and implementation of ADHD specific interventions
- Integration of clinical and research activities
- On-site professional training and development
- Received local and national recognition as a family-focused interdisciplinary centre that provides coordinated care for children with attentional disorders including screening, assessment, diagnosis, intervention, research, and training

2) Collaboration with Schools

Worked collaboratively with all Nova Scotia school boards as well as the Nova Scotia Department of Education on a number of projects, including the following:

- Currently participating in the development of a provincial initiative on Learning Disabilities (NS Board of Education)
- Participated in the development of The School Psychology Guidelines (NS Dept of Education, 2005)
- Invited to participate in the review of Special Education Policy
- Developed a specialty ADHD Clinic which is a formal partnership between mental health and Chignecto-Central Regional School Board
- Collaborated in numerous research projects and acted as a research consultant in the Chignecto-Central Regional School Board
- Principal Investigator for a teacher intervention web-based program being evaluated in all school boards across the province and currently being examined to determine how to make sustainable over the long term
- Supervised practicum placements for students in the Halifax Regional School Board
- Conducted a collaborative research project with the Annapolis Regional School Board
- Trained and supervised school psychologists who work across the province in all eight school boards
- Assisted with establishing a special association for school psychologists within Nova Scotia Teachers Union (this was a major accomplishment as this group had been trying to achieve this goal for over a decade with little success)
- Conducted research in collaboration with school personnel in four of the eight regional school boards
