## Data Mining the Deceased: Film & Discussion

Genealogy is arguably the largest historical enterprise in the world, and one of the largest data mining operations. *Data Mining the Deceased* takes a look at individual and industry stakes in the phenomenon of family history.

**Following the screening will be a discussion about current issues of genetic genealogy with Director, Julia Creet; Françoise Baylis, University Research Professor, Dalhousie; and Darryl Leroux, Sociologist of Indigenous DNA Claims, Saint Mary's University.**

Sunday, February 3 | 2-5 pm
