

INTERESTED IN PUTTING YOUR SPANISH TO GOOD USE? AND GETTING CREDIT WHILE RECEIVING VALUABLE WORK EXPERIENCE?

This Fall term several students have done just that, through an Experiential Learning (Span 3920.03) course. They have been involved in fascinating projects--working with the Halifax Refugee Clinic, with the HRM Library system, teaching immigrants learning basic literacy skills, translating and explaining tenant rights, organizing activities for Spanish-speaking students at Dalhousie, and teaching at both Citadel High School and Sacred Heart school.

The course will be offered again next Fall.

If you are interested in what some of the students did, and the experience they gained, come to their presentation on Wednesday November 29, at 2.30pm in McCain 2022.
